19–23 October 2026

WEEK AT A GLANCE

A glimpse of healthcare delivery across the Eastern Cape.

THE WEEK IN REVIEW

This week, the Eastern Cape Department of Health continued to advance healthcare delivery through workshops and essential healthcare programmes.

Key activities included the Wash Fit workshop at KuGompo City and a Strategic Planning Session in Mthatha, which focused on aligning departmental priorities and strengthening strategies to improve service delivery.

These initiatives reaffirm the Department's commitment to accessible, responsive and people-centred healthcare across the province.

WASH FIT WORKSHOP

The Eastern Cape Department of Health hosted a 5-day WASH FIT workshop at Garden Court Hotel in KuGompo City.

The workshop aimed to strengthen water, sanitation, hygiene and healthcare waste management in health facilities using the WASH FIT assessment tool and improve infection prevention.

The program included theoretical sessions, facility visits and on-site assessments across the province. Delegates later reconvened to reflect on findings, share experiences and develop improvement plans. The initiative marks a significant step towards safer, cleaner and more resilient health facilities for all patients and staff.

STRATEGIC PLANNING ENGAGEMENT SESSION

EASTERN CAPE DEPARTMENT OF HEALTH CHARTS THE WAY FORWARD FOR STRONGER HEALTH SERVICE DELIVERY

The Eastern Cape Department of Health's Strategic Planning Engagement Session brought together departmental leadership and key stakeholders to align priorities and identify practical solutions to strengthen health service delivery.

Key discussions focused on strengthening departmental systems, digital transformation, improved data management, accountability and institutional performance. Through collaborative planning, the engagement contributed to informing the 2027/28 Annual Performance Plan, translating strategic priorities into measurable actions towards improved health outcomes for the people of the Eastern Cape.
